Chapter 1 by Jack Frost

Today was supposed to be the day we won the tournament. Phantim, Achillius, Forthwind, Jace, and myself, we were all on the verge of winning against the The Red dragons. The number one team in the world. We had them pinned down, and all but defeated, and that's when everything started. Everything shut down, and we were left in total darkness. Our computers turned on, and a message appeared. It said 'Today your lives change, for the better, defeat the game together and you win. Only when you defeat the game will you return.' Then everything went black.

Chapter 2 by Adam

We walked slowly over to the other players, 4 were already "dead". I wondered if they died in real life. I walked to the last remaining enemy, their healer. I raised my sword as he pleaded for me to stop. I plunged my sword into his chest, killing him almost instantly. I had to look away to avoid seeing the blood, so did the others.

We had won, but now it didn't really matter. We were in the game and there was no way out.

Chapter 3 by Lex

We had to defeat two other teams before we could go after the Red Dragons. The next team up was Lost Souls, and they were pretty good. They had five members, two mages, a healer, an archer, and a really big demon. Vlad figured he should take out the healer first so that he couldn't keep healing the Demon, Achillius and Forthwind focused on trying to distract the demon so that i could take care of the mages, but we were still left with the archer...that would be a problem.
